The Sutherland Landscape and Nursery Co.

BOULDER, COLORADO

BARGAIN PRICES FOR 1932

Surprising reductions in prices for this year, but no reduction in quality. You can order liberally at these new record-breaking prices.

HOW WE MAKE THESE REDUCTIONS

You will wonder how we can make these record-breaking prices. Frankly, we can't unless you help us bring our Handbook of High Quality Stock to the attention of your flower-loving friends, and thus increase the volume of our sales. Without this increase the small margin of profit left us will leave us at the end of the year with a loss. The stock has cost us just as much as it formerly did, as we have not reduced wages,—the largest item of cost in producing nursery stock. There is just one large item of cost that we have cut this year—A NEW ISSUE OF OUR HANDBOOK.

Friends everywhere tell us that The Sutherland Garden Handbook is the most helpful garden handbook they have ever seen. This handbook cost us a great deal of money to produce; but last year we had an extra quantity printed; so to help us make these new prices possible we are going to ask you to use the copy you have on hand from last season, in conjunction with this new Price List. If you have lost your copy drop us a card and we will send you another. This is the only possible cut in production and distribution expense we can make; so please give us your warmest support in this way.

We do not offer a large list, just a few of the REAL CHOICE SHADES in the different colors. We pay delivery charges. No order for less than One Dollar will be mailed prepaid. 1932 BARGAIN PRICES ON EVERGREENS

Compare these prices with our last year's prices, printed with descriptions, pages 49 to 51 of our catalogue and you will find that our BARGAIN PRICES are from one-third to one-half lower, we believe the lowest prices at which such evergreens are offered anywhere in the country. Evergreens can be shipped by express in crates, but must be boxed to go by freight. Boxing, for freight shipping, will be charged at cost.

EVERYBODY CAN HAVE EVERGREENS AT THESE PRICES

Beautify your home by planting our dwarf Evergreens around the foundations. Our free book on "How to Landscape Your Grounds with Evergreens" is yours for the asking, and we

shall be glad to help you make selections if you will send us a Kodak picture of your house.

How we measure Evergreens, when the prices are figured by the inch or foot. To figure the cost of upright evergreens measure from the ground to the top, on the spreading forms measure across the widest way, and then the narrowest, add the figures and divide by two; this will give you the average measurement.
